Note: These data were collected from government documents and from the annual surveys of government finances and employment conducted by the U.S. Bureau of the Census. Criminal justice data are extracted from these sources by the Census Bureau for the U.S. Department of Justice, Bureau of Justice Statistics. The Federal Government, all State governments, and a sample of county, municipal, and township governments were included in the surveys. Since not all local governments were included in the surveys, these data are subject to sampling variation. Duplicative transactions between levels of government are excluded from the total for all governments, the State and local total, and the local total. Such intergovernmental expenditure consists of payments from one government to another and eventually will show up as a direct expenditure of a recipient government. The fiscal year for the Federal Government begins October 1 and ends September 30. For survey methodology and definitions of terms, see Appendix 1.
